## PROFILE

Economics Ph.D. researcher focused on development, technology, and economic behavior, with strong skills in applied microeconometrics, causal inference, and program evaluation. Proficient in R, Stata, and Python for large scale data analysis, survey design, and mixed methods research. Examines how ICT and emerging technologies influence educational choices, information access, and inequality in underserved communities. Driven to produce policy relevant research that supports equitable development and responsible tech and AI policy.

## EDUCATION

**University of Washington**

*Ph.D. in Economics*  
*M.A. in Economics*

Seattle, WA  
 2023 – Present  
 2025

**University of Colorado Boulder**

*B.A. in Economics (Magna Cum Laude) and Mathematics*

Boulder, CO  
 2023

GRADUATE  
COURSEWORK

**Fields:** Development Economics, Microeconomics

**Methods:** Applied Microeconometrics, Econometric Theory, ML for Economists

**Other:** Contract Theory, Auction Theory

TECHNICAL  
SKILLS

**Programming:** R (advanced), Stata (advanced), Python (intermediate), Matlab  
**Tools:** L<sup>A</sup>T<sub>E</sub>X, Git, Quarto, Excel

**Econometrics:** MLE, limited dependent variable models (probit, tobit), regression discontinuity, difference-in-differences, fixed and random effects panel models

**Machine Learning:** Decision trees, random forests, LASSO, Ridge, clustering, PCA, and model validation.

**Development and Policy Analysis:** Program evaluation using microdata, education and labor market interventions, household-level decision-making, NGO program design

**Economics Theory:** Microeconomics, general equilibrium, game theory, contract theory, auction theory

WORK  
EXPERIENCE**Northwest Economics, LLC**

*Research Assistant*

Seattle, WA  
 Summer 2025

- Analyzed payroll and shift data in R to support litigation with wage theft claims.
- Merged and cleaned complex time card and compensation datasets; developed reproducible workflows to quantify damages using legal standards.
- Contributed to the preparation of expert reports by synthesizing the methodology in explanatory notes for legal teams.

**University of Colorado, Department of Mathematics**

*Math Tutor and Learning Assistant*

Boulder, CO  
 Jan 2022 – Aug 2023

- Provided academic support in calculus and linear algebra; emphasized proof techniques and conceptual reasoning.
